

Product Code SDS-CT-45e	Dimensions 7" x 4" x 2"	
Description The 45° External Connector mates with the 45° Internal Connector (SDS-CT-45i) to install Secure Raceway around obstacles with a wall depth too shallow for the 90° Internal or 90° External Connectors (SDS-CT-90i / SDS-CT-90e). The 45° Connectors reduce the number of parts previously required to mount raceway around similar obstacles, providing a cleaner appearance and a reduction in material and labor costs. This connector consists of two components: High Security Raceway and TopCap. Two manufactured mounting points at each end simplify attachment to the wall. For most applications, installation would require one 45° External Connector and one 45° Internal Connector joined by four (4) Secure Raceway Joints (SDS-RW-SRJ), three (3) sections of Raceway and TopCap, one (1) Steel Locking Kit (SDS-LK-KIT-ST), and three (3) End-to-End Connectors (SDS-CT-EE6-ST).		
Specifications <ul style="list-style-type: none"> • 16-gauge electro-galvanized steel • Components: <ul style="list-style-type: none"> - Raceway: Length 7.4" x Width 4.3" x Height 1.8" - TopCap: Length 7.4" x Width 4.3" x Height 1.9" • Total Length: 7.4" • Total Weight: 1.35 lbs • Two (2) manufactured mounting points in each Raceway section <ul style="list-style-type: none"> - 1.5" from each end - Located along center line • Sold individually but used in conjunction with the 45° Internal Connector (SDS-CT-45i) <p>Powder Coat Finish: White Textured</p>
