

<b>Product Code</b> <b>SDS-POLE-KIT</b>	<b>Nominal Dimensions</b> N/A		
<b>Description</b> <p>The Pole Mount Kit allows for dual parallel channels of SDS or SLC raceway and user drop boxes (UDBs) to be supported and mounted in a large open area cubicle environment where solid wall support structures are not available. This support system starts with a floor flange Interface Sleeve that is anchored to the hard deck. SDS 2x2 Raceway and TopCap (not included) serves as the vertical mounting pole, and the pole is fixed to the ceiling with L-brackets and threaded rod (not included). A ceiling tile trim plate is also included to provide a clean appearance if the support pole transitions above the tile. Multiple enclosure brackets are included that can be bolted to the support pole with either transition enclosures at the top and/or UDBs at the bottom. This system provides a solid support system for large horizontal cable distributions and user access points.</p>			
<b>Specifications</b> <ul style="list-style-type: none"> <li>• 16-gauge electro-galvanized steel</li> <li>• Weight: 15 lbs</li> <li>• One (1) pole mount base ①</li> <li>• Two (2) L-Brackets for the ceiling pole support ②</li> <li>• One (1) ceiling tile trim plate ③</li> <li>• Four (4) 1" spaced support brackets for mounting UDBs or pull boxes ④,⑤</li> <li>• Mounting hardware included</li> </ul> <p>Powder Coat Finish: White Textured</p>
