

Product Code SMC-CT-4WY	Nominal Dimensions N/A	
Description The Universal Four-Way Connector allows Holocom Secure Medium Carrier Raceway to branch out between two and four directions with each direction separated by 90°. Each branch completes a three step staggered turn from the neighboring entry point to mitigate potential cases of improper bend radius. The kit includes four secure raceway joints, two endcaps, and one cover so that two to four entry points are fully supported. A Velcro® strap tab is welded to the underside of the cover to support alarming sensor cable, which can be routed through similar tabs along the Secure Medium Carrier Raceway TopCap. The cover is secured using Holocom’s signature end-to-end connectors and locking mechanisms.		
Specifications <ul style="list-style-type: none"> • 16-gauge electro-galvanized steel • Weight: 11 lbs • Four (4) sets of manufactured mounting points located at each of the Raceway junctions Powder Coat Finish: White Textured
